**CANOPY**  
STYLISH

Aeroklas are on the cutting edge of canopy manufacturing and development being the first company in the world to offer Engineered ABS Double Shell Canopies. Both the inner and outer shells are moulded together to bring you twice the strength and durability then a single skinned canopy, featuring a higher impact resistance and ability to reshape after impact. Available in dual and space cab, the Aeroklas canopy is painted using OE quality paint giving it such a perfect, glossy and flawless finish.

Aeroklas canopies feature a twin skin design. Each shell is thermoformed from a single piece of ABS with no joins or weak areas. Aeroklas's ABS twin skinned canopy is twice the strength of any canopy on the market. Aeroklas canopies have gone through pendulum testing up to 200kgs, with an impressive result of a intact shell with no cracks.

The smooth finished outer shell is Robotically painted to OEM standards and pass OEM testing requirements for paint finishes. All painted canopies are matched to OEM master plaques. The paint features UV protection to ensure that the finish remains pristine for years to come, making Aeroklas canopies completely durable towards all environmental conditions.

Interior offers an attractive textured finish, with no external wiring or bracketry for an easy odour free finish. All Aeroklas canopy shells are made from 100% recyclable ABS.

- ✓ Double shell thermoformed ABS construction.
- ✓ Smooth exterior finish
- ✓ Easy clean, ABS ripple finish interior
- ✓ Multiple side window configurations
- ✓ Sliding or fold down front window
