Product Information

The TJM Premium Canopy for the Nissan Navara D23 uses clever design and intuitive features to seamlessly integrate with your 4x4 and protect your cargo. To make vehicle access simple and enhance security, the TJM Premium Canopy features full central locking. The TJM Premium Canopy has self-lifting side windows – activated by hidden push buttons on either side of the canopy – giving you added convenience and functionality.

Constructed from highly durable fibreglass, the TJM Premium Canopy is crowned by tinted and tempered glass windows that add security and UV protection to what's inside your vehicle. Even better, large side and rear windows make accessing the inside of your canopy simple, which is felt-lined to add a high-end finish to your canopy's interior.

Features

- Full remote central locking to rear door and side windows
- Tough yet light-weight fiberglass construction
