

**SECURE
WEATHERPROOF
ORGANISED
STORAGE**

**WORK
SMARTER**

**PLAY
HARDER**

That is our mantra. The reason we created DECKED. We know that every minute you save during the day, every trip in and out of your vehicle you avoid, every awkward lift you don't have to perform, means you'll gain an edge and have more time and more energy for what really matters. You're damn right we are zealots for good ergonomics and efficient organisation. Driven by a passion for perfection and doing the right thing, we are proud to make our products from recycled materials.

We're even prouder to help improve the lives of those who rise early to get the job done. We spent three years developing and engineering DECKED and the past four years refining our design with the help of real people in the field using DECKED daily. Thousands of happy customers (and four grouchy ones) later, we are here to say it's an honour to serve our hard working and harder playing customers with an innovative family of products designed to help you Work Smarter so you can Play Harder.

WORK SMARTER

WE TOOK DIY PLYWOOD DRAWERS AND TURNED THE IDEA INTO AN ENGINEERED, RUGGED AND AFFORDABLE ORGANISATION AND STORAGE SOLUTION FOR TRADESMEN AND WOMEN, COMMERCIAL CUSTOMERS, PUBLIC SAFETY RESPONDERS AND MILITARY APPLICATIONS...AND ANYONE THAT WANTS TO GET THE MOST OUT OF THEIR UTE.

PLAY HARDER

AS HARD AS YOU WORK, WE KNOW YOU PLAY HARDER. WE BUILT DECKED FOR GETTING OUT OF TOWN, HITTING DIRT ROADS AND PURSUING DINNER, WHETHER IT HAS FOUR LEGS, WINGS OR FINS. DECKED'S 1 TONNE PAYLOAD MEANS YOU CAN HAUL ALL YOUR GEAR AND STILL LOAD UP THE ATV OR THE MOTO. SO LOAD UP YOUR DRAWERS, AND GET BUSY LIVIN'.

WORK SMARTER

OUR COMPANY MISSION IS TO MAKE LIFE EASIER FOR THE WORKING MAN AND WOMAN. WHATEVER YOUR MISSION, DECKED HELPS YOU WORK SMARTER WITH INCREASED EFFICIENCY AND LESS WEAR AND TEAR ON YOUR BODY.

PLAY HARDER

FISHING, SURFING, CAMPING, BOATING—YOU NAME IT. DECKED MAXIMISES THE FLEXIBILITY OF YOUR VEHICLE'S TUB. WE ENGINEERED DECKED TO KEEP YOUR GEAR DRY, SECURE AND ORGANISED.

ERGONOMIC

ALL YOUR GEAR, RIGHT AT YOUR FINGERTIPS.

You don't need kneepads for negotiating contracts, so you shouldn't need them for accessing the tools and gear in the tub of your ute either. Smooth rolling, secure drawers bring all your goods sliding right out at tailgate height while still allowing full use of your ute tub or van cargo area. Grab a handle and get 'er done.

ORGANISED

THERE'S NO SUCH THING AS TOO MUCH STORAGE.

"I'm too organised!" said no one, ever. Roll up to the jobsite ready to go with the tools and materials for the day organised, easily accessible and ready to rip. With DECKED's customisable storage, you'll end the junk show in the cab of your rig or tub of your ute. Be prepared for whatever the day throws your way.

JAROD SWEET | PROFESSIONAL DYKE COMPETITOR

SECURE & WEATHERPROOF

SECURE

With your tools, straps, rods and other gear organised in your DECKED system, they are as secure, if not more secure, than under a locked tonneau or canopy. Tailgate locks combined with our design, will keep the bad guys out.

CUSTOMISABLE

With more options than your facial hair, we've developed a collection of helpful accessories to help you get more out of your system through customisable configuration. Like the first day of Movember, the options are limitless.

RUGGED & DURABLE

Built from zombie apocalypse-proof HDPE and anti-corrosion treated steel, DECKED is impervious to the elements. Designed to be left outside in all conditions, from under a blistering QLD sun to an Thredbo whiteout, DECKED is meant to be ridden hard and put away wet.

WEATHERPROOF

DECKED drawers are designed to be fully weatherproof and ready for whatever Mother Nature might bring. While airborne particulate matter like mist or dust might penetrate the drawers, you're gonna have to really screw up and back your ute into a lake to swamp your stuff.

FULL TUB USE

GAIN SURFACE AREA LIKE A BOSS.

DECKED elevates the bed floor of your ute 309mm, giving you full wall-to-wall storage right over the tops of your wheel wells. Need to load a pallet of stone, bunk of plywood or that new ATV you can't afford? No problem. With your essentials secure in the drawers underneath, you have full license to load 'er up.

HEAVY DUTY ENGINEERING

UNMATCHED STRENGTH-TO-WEIGHT.

With a system payload of 1 tonne and 100 kgs per drawer capacity at a total product weight of only 100-105 kgs (depending on model), DECKED has the strength-to-weight ratio of ten to one.

UNDERSIDE VIEW

Depending on your tub length, you will have 6-7 galvanized steel tubes running laterally through the deck. Dimples in the deck surface identify steel tubes for easy location when attaching accessories.

HIGH DENSITY POLYETHYLENE (HDPE)

Impervious to the elements and extreme hot and cold environments, this stuff is the bullet-proof cockroach of recycled plastics.

STRENGTH-TO-WEIGHT

Do the math: 1 tonne payload, 100 kgs per drawer capacity at an overall weight of 100-105 kgs. That's a heck of a lot of stuff you can load up without compromising your ute's payload capacity.

1 TONNE PAYLOAD

Your ute works as hard as you want it to think you do. A steel subframe skeleton in-moulded to HDPE gives you that 1 tonne payload you need to get all the toughest jobs done.

CUSTOM FIT

Each DECKED system fits your tub like a glove. CAD engineering data is used to match the sidewall topography of your ute tub and van body for a perfect fit.

STEEL IS REAL

30% of the system weight is steel! Steel tubes are in-moulded laterally into each deck.

EASY TO INSTALL (MINIMAL IMPACT)

We engineered DECKED to attach to factory tie downs and cargo attachment points with little to no drilling required for easy installation and removal. Some models require no drilling at all.

RECYCLED MATERIALS

We manufacture DECKED from 100% recycled HDPE and American steel for greening up your outdoorsy everyday life.

GOOD PARTS

You're into your ute. We're into our hardware. Our stainless steel, galvanised, e-coat, and zinc chromate anti-corrosion hardware treatments exceed industry standards.

BEEFY WHEELS

Thanks to 4 sealed bearing wheels per drawer, our drawers roll as smoothly as butter in December.

WHAT WE FIT

DECKED FITS MOST UTES AND CARGO VANS MADE FROM THE MID 2000S TO TODAY. REFER TO DECKEDAUSTRALIA.COM.AU FOR OUR MOST CURRENT FITMENT GUIDE.

TECHNICAL DATA: FROM OUR NERDS

MIDSIZE NARROW DRAWER

Each ute midsize system features one narrow drawer and one wide drawer. Wide drawer is same width as drawer on full size systems.

HEIGHT
216mm

WIDTH
279mm (top), 248mm (bottom)

LENGTH
SHORT BED: 1346mm (top), 1200mm (bottom)
LONG BED: 1643mm (top), 1499mm (bottom)

MIDSIZE SYSTEM

SYSTEM WEIGHT CAPACITIES

DISTRIBUTED PAYLOAD	1000 KG
DRAWER CAPACITY (EACH)	100 KG

SYSTEM DIMENSIONS

	SHORT	LONG
LENGTH	1438 MM	1727 MM
WIDTH (VARIES)	APPROX. 1626 MM	APPROX. 1626 MM
HEIGHT	309 MM	309 MM
TOTAL WEIGHT (KGS)	90	105

DETENT STOP

New for midsize utes, drawers now feature an integrated detent stop which prevents drawers from rolling closed even on steep inclines.

Ammo can lids flip over to reveal cup holders.
UNDERSIDE VIEW SHOWN.

AMMO CAN STORAGE

Two roomy ammo cans are located in the tailgate corners of midsize systems. Weatherproof for storing extra items.

FINE FINISHES

You love your ute, and at DECKED, we're the same way. To help you work smarter, we've provided a handy ruler with additional common conversion and bit guides. When it's quittin' time, our bottle opener and integrated cup holders make your tailgate the place to be.

AMMO CAN STORAGE

Four ammo cans are located in the four corners of the DECKED full-size system offering additional storage. BONUS: Ammo can lids flip over to reveal drink holders.

FULL-SIZE DRAWER

HEIGHT
216mm

WIDTH
457mm (top), 425mm (bottom)

LENGTH
SHORT BED: 1560mm (top), 1407mm (bottom)
STANDARD BED: 1831mm (top), 1679mm (bottom)

FULL-SIZE SYSTEM

SYSTEM WEIGHT CAPACITIES

DISTRIBUTED PAYLOAD	915 KG

D-BOX + CROSSBOX

Get maximum cargo storage efficiency and drawer functionality with our durable, weatherproof toolboxes. Both the original D-Box and our new, half-size Crossbox feature a ruler and common bolt/bit guide as well as locking levers. Designed to nest perfectly in DECKED drawers.

Customise your storage. Set your D-Boxes and Crossboxes up to hold hand tools, cordless tool sets, fishing tackle, emergency gear, your camping kitchen, beers, or whatever else you can imagine.

WEATHERPROOF GASKET

REMOVABLE TRAY

CROSSBOX

D-BOX

REMOVABLE DIVIDERS

HORIZONTAL & VERTICAL CARRY

NEW: CROSSBOX

Fits lengthwise in midsize drawers. Nests horizontally in full-size and midsize wide drawers.

MIDSIZE SYSTEM SHOWN

ACCESSORIES

ALL ACCESSORIES SOLD SEPARATELY.

LOCKS

Lock up your tools, beers, rods, skis and other valuable gear with our drawer lock and key system for added security.

DRAIN PLUGS

Utilise drawer drain plugs to drain water from drawers. Makes cleaning up from an epic tailgate party a breeze.

DIVIDERS

Get more out of your DECKED drawers with our removable dividers. Segment your space to fit your needs, and truly get organised for the task.

T-TRACK RACK MOUNTS

DECKED T-Tracks bolt to the steel tubes in your deck allowing compatibility with Thule and Yakima rack systems. Made from 6061 T6 aluminium.

CORE TRAX 1000

Custom Core Trax 1000 tie downs bolt to the steel tubes in your deck to secure bulky loads. Made from powder coated 6061 T6 aluminium with stainless steel tie down loops, Core Trax offer a 226 kg pullout rating.

.....

CAUTION: Prolonged exposure to DECKED may result in increased acts of manliness, elevated levels of awesome, unexpected quantities of free time and enlarged paychecks. Symptoms may include frequent requests to rescue animals stranded in trees, compulsive bending of iron with bare hands, uncontrollable desire to fix broken things and unexpected levels of attractiveness. Should you experience any of these, please recommend DECKED to a friend immediately.
